SHEET 1 OF 1

A4

- Heights above Playground surface are shown on decks and all play equipment, is. (3) = 400mm
- Impact absorbing ground cover is required under and around all play equipment.
- The min. recommended fall zone around the entire play structure is shown. This zone is to be free of all tripping or collision hazards (i.e. roots, rocks, border material, etc).
- Site layout and dimensions are subject to verification prior to installation.
- Dimensions in millimetres unless stated otherwise.
