Setting the Standard From concept...

CONTACT

Contact one of our friendly staff by phone or email. One of our Playground Specialists will be designated to your project.

COLLABORATE

Our qualified Playground Specialist will work closely with you to create a unique play space, based upon your requirements.

DESIGN

Your dedicated Playground Specialist will liaise with our in-house Design team to create a project specific representation of your new play space.

REFINE

Your dedicated Playground Specialist will present the concept design, along with a completely itemised quotation for your review and feedback. We will continue to work with you to refine and amend the proposed design until you are 100% happy.

DELIVER

Before you know it, your new Playground will be complete and ready for action. Your dedicated playground Specialist will take you for a tour through your exciting new play space and answer any questions you may have. At this stage you will also receive a comprehensive handover package including all warranty, compliance and maintenance information.

SUPPORT

As an Australian owned Company established in 2000, Austek Play will only be a phone call away should you require parts and/or maintenance in the future.

CONSTRUCT

Our experienced and qualified Site Manager and team of installers will ensure the construction process runs smoothly and efficiently. We are an Open Class Licenced Building Company and our entire team has extensive training and experience in the commercial Playground Industry.

PROCEED

When you are completely happy and have placed an order, we will get to work on the next phase. At this time, we will also discuss the best time to schedule the works, based upon school timetable and site access.

...to completion

Our Range

Play is a critical element of childhood development and at Austek Play, we are committed to ensuring we deliver a playground that is suitable for various user age groups and provides appropriate and challenging activities, that encourages your students to actively engage and participate in play.

This is a very small snapshot of our range – Austek Play has one of the largest ranges available in the industry – refer to our website or contact us to find out more about our extensive variety of equipment choices.

1. Extreme Structures

Australian made modular system that can be modified and adapted to suit budgetary and user requirements. Available in marine grade specifications.

Refer page 6-7

2. Rope

Manufactured in Australia with a wide range of colour options. Customise by combining different components. Timber or steel supports available.

Refer page 8

3. Timber

Wide range of standard and custom units available, using either local or international hardwood timber materials.

Refer page 8

4. Themed

Select themes from Australian or international manufactured themed equipment.

Refer page 11

5. Sensory

With physical, cognitive, social and sensory events, Austek Play equipment facilitates the use of active play spaces where children of all abilities can play side by side.

Refer page 9

6. Fitness

Static and dynamic fitness equipment, suitable for outdoor spaces. Wide range of local and international equipment available to choose from.

Yarning Circle

Yarning Circles have played an integral role in Australia's rich cultural history and provide key lessons & values for today's students.

Traditionally used to create a harmonious, creative and collaborative way of communicating, the space and principles within the yarning circle sets out to encourage responsible, respectful and honest interactions between participants with the view to build trusting relationships, foster accountability and provide a safe place to be heard and to respond.

Austek Play is excited to present our unique range of yarning circles, featuring authentic Indigenous Australian artwork designed exclusively for Austek play by world renowned artist Chern'ee Sutton from the Kalkadoon People.

Other Services

Shade

Where natural shade is not available, fabric or solid shade structures are an alternative option to provide much needed protection from the harsh Australian sun.

Surfacing

A crucial part of your playground, it is essential to have certified and compliant impact attenuating surfacing installed – certified organic mulch, bark, sand, rubber or synthetic grass.

Landscaping

To enhance functionality and encourage play within a natural environment, our trained Playground Specialists will work with you to provide suitable landscaping solutions, ensuring an overall aesthetic appeal that compliments your play space.

Edging

Timber, concrete, sandstone or rubber edging ensures your playground has a clean barrier to maintain impact attenuation properties.

After Sales Support

Established in 2000, we are a leading parts supplier in the industry.

Upon completion of your project, we will issue a certificate of compliance to Australian Standards, along with your warranty and maintenance documentation. Contact us should you require any assistance with spare parts or maintenance in the future.
