## About Us

Omnitech has been involved within the playground industry in Australia for more than 30 years. From the days when Ausplay equipment dominated the landscape to the present, the name Omnitech has been one you have come to rely on for quality and service.

Omnitech Playgrounds manufacture and produce a great range of equipment right here in our factory in Victoria. Stocking a complete range of Ausplay and Omnitech spare parts. Omnitech Playgrounds also offer the complete after service experience including inspections, maintenance and refurbishments to your play equipment. Further to all of the above Omnitech are the official Australian distributor of Internationally renowned products from HAGS in Sweden and Little Tikes in the USA. With AustekPlay acting as our Agents in QLD & NSW, The Playground People in ACT and Outfront Concepts in SA, you can rely on us to be there all the way.

## Local Team & Manufacturing

With over 30 years of manufacturing experience in the playground industry Omnitech has a strong team of dedicated builders, installers, designers and sales representatives. We are very proud to be delivering 100% Australian made and designed equipment within our 'Extreme' range. Our designers are constantly evolving their designs, with new pieces consistently being developed. Our design and manufacturing facilities are the core of our business. We strive hard to support the local industry sourcing Australian made steel, as well as our moulded and recycled plastics.

Our Extreme range is manufactured in Australia, and features 65mm square steel posts powder-coated in your choice of colour. With injection moulded post caps and vandal resistant stainless steel hardware, this equipment is built to withstand the rigours of daily use.

The entire Omnitech Extreme range is designed to ensure that developing children are able to extend themselves in a setting that is not only challenging, but also forgiving. Guardrail panels that offer genuine protection against accidental falls and smooth child friendly surfaces are just some of the standard safety features of every Omnitech Extreme unit.

In the following pages are selections of popular Omnitech Extreme units, however the Extreme range allows us to custom design a unique playground for you. This means you can incorporate all your favourite components and activities whilst also keeping in mind any budget or space restrictions.

With the Omnitech Extreme range you can create a truly enticing playground for your children.

Inspired by nature, the Omnitech Timber Range is a fantastic source of inspiration for physical activity. Designed by Omnitech Playground's in-house design team, this range has been developed to excite and attract children of all ages.

Timber and rope naturally command activity in children. They provide natural obstacles for children to take on, such as climbing, balancing, swinging and sliding, allowing for independent discovery and growth of a child.

This equipment features modular based play systems, with more than 50 exciting play functions. Natural rope and timber materials encourage children to interact, touch, watch and play using their senses to discover new shapes and experiences.

Proudly Australian made, these timber units are built using strong, durable, locally sourced materials to withstand even the harshest of outdoor environments.

306 Laura

# Activity Boxes

Encouraging exercise through play...

Omnitech's Australian made fitness Activity Boxes encourage physical activity.

Inspiring children, teens and young adults to exercise as they play.

The equipment has been specifically designed for use outdoors, suitable for parks, reserves and schools.

# In House Design Team

Omnitech Playgrounds have their own experienced in house design team creating new play elements and designing playgrounds to meet your needs.

Using the latest software, Omnitech's design team can quickly and professionally create your new playground in 2D and 3D views, making playground selection and installation a breeze.

Adhering to all Australian standards, our designers are also regularly developing new play equipment looking to capture the imagination of children with exciting new physical and cognitive challenges with one focus in mind: fun!

All children have the same desires for fun and excitement, and the need for physical challenges, social interaction and intellectual stimulation. These needs are no different for children with disabilities.

Omitech are committed to providing play opportunities that are inclusive for children of all abilities. We understand how important play is as part of children's development.

We have a range of complete units, activities or separate components that together can form the perfect inclusive playground.

Items such as accessible ramps, rubber access paths and sensory play units can all be used together in playground designs to allow wheelchair access. The unique Mirage swing seat enables children with specific needs the wonderful feeling of freedom and momentum that only a swing can bring.

Omnitech Playgrounds understands how important it is to design a playground that doesn't isolate disabled children to one corner of the playground or to one piece of equipment. Our experience is in providing a playground where children of all abilities can play side-by-side.

# OmniRope

**A whole new dimension of fun...**

Omnitech's Australian made OmniRopes add a whole new dimension to your playground. For climbing, swinging, swaying and hanging, OmniRopes can be used by all ages. They help to develop both upper and lower body strength and co-ordination while creating social opportunities for kids.

Our freestanding designs are available in a range of different sizes and shapes to give you plenty of variety to suit any outdoor area.

Certified to meet all Australian standards and locally produced, OmniRopes are constructed with a steel core wrapped in a specially braided nylon rope. Joined together with hand-finished heavy duty aluminium connectors to ensure they'll not only look great but last for years.

# Freestanding

Stand alones that really stand out!

Omnitech Playgrounds has a fantastic range of unique freestanding items that offer a variety of exciting opportunities and new challenges keeping kids active and entertained. They are a perfect complement to your existing playground or as a feature item in a smaller area.

The Freestanding range consists of both large and small equipment that will appeal to children of all ages.

Larger items such as Rope Nets, the Dragonfly and our Dragon Challenge are unique items that are sure to become the main attraction of any playground.

On a smaller scale items such as our spring riders, play sculptures and swings are perfect to add just that extra bit of fun and variety.

Omnitech Playgrounds have a wide range of fitness equipment suitable for use in parks, reserves and schools.

Our new Australian made fitness stations revolutionize the idea of outdoor exercise. The equipment has been specifically designed for use outdoors and is intended for teenagers and adults.

Our ranges of fitness circuits also offer a great way to develop strength and endurance. An ideal addition to council parklands or school playgrounds, and can be incorporated into PE and Sport lessons.

All the Fitness equipment in the Omnitech Playgrounds range aims to encourage outside activity and healthy living. These benefits are considered a valuable tool in the battle against the global obesity epidemic.

# Contained Play

**Minimum space, maximum fun...**

Omnitech Playgrounds range of Contained Play equipment is perfect for hospitality venues, businesses or any organisation that wishes to provide indoor play opportunities for children. The units are designed to maximise play value whilst taking up as little space as possible.

All units are individually designed to meet space requirements, ensuring maximum play value for the space and height are achieved. The enclosed nature of the design ensures maximum safety as the risk of falling from dangerous heights is eliminated.

All units are designed to allow easy accessibility for children and high visibility for parents with a diverse range of slides, activities and interactive panels to entertain children of all ages. Different colour schemes and logos can be incorporated into the design helping to promote your family friendly venue to passing customers.

We use only the highest quality materials, which means your playground is built to last whilst keeping maintenance costs to a minimum.

Services

# Proudly Australian

Omnitech playgrounds are much more than just a playground supply company. We are a one-stop shop for all of your playground needs – offering a full service covering each stage of your playground's lifecycle. Beginning with our design and installation service, we can professionally specify a playground to meet your needs, in the colours you want, and ensuring that every component of the playground unit meets the Australian Standards.

As your playground is enjoyed over the years our experienced inspection and maintenance team are available to ensure that nothing goes wrong, checking that everything is working as it should and that there are no unseen hazards posing risk to children. We have one of the widest ranges of playground spare parts available and specialise in maintenance and repairs.

## In House Processes

Omnitech playgrounds have over 30 years experience in metal fabrication and coating, including powder and PVC coating. We roll, bend and weld all of our playground parts in house, at our factory in West Heidelberg.

Our wealth of knowledge in this field is second to none, stretching back to the days when Ausplay playgrounds dominated the Australian landscape. When it comes to playground equipment, our experience and expertise will give you peace of mind that Omnitech will deliver on all that is promised.

## Installation

Omnitech's major project works are installed using some of the most experienced playground installers in the industry, they are fully qualified and have all the necessary licenses and insurances required to get your playground in the ground and ready to use safely and on time. Backed up by our expert warehouse staff you can be assured that we will do everything in our power to ensure your project is delivered on time and on budget. Check out some of our recent installations on our projects page to see the quality of work our team of staff and contractors produce.

## Refurbishments

Omnitech playgrounds specialise in breathing fresh life into your old playground unit. Our environmentally friendly refurbishment service can reuse your existing steel and aluminium components and posts to minimize waste by recoating them with a range of colourful and durable finishes.

We carry a huge range of spare parts and have the ability to custom make or repair damaged parts. If you're looking for a cost effective and environmentally responsible solution to your playground requirements or have a unit that just needs a bit of a facelift, give us a call.

## Spare Parts

Omnitech playgrounds stock a complete range of spare parts, from old Ausplay and Omnitech equipment right through to the latest international parts from Hags and Little Tikes. Not only do we stock all these but we also custom build parts to suit, including decks, rails and any other steel components.

If you require any sort of steel part, chances are we can make it for you so please don't hesitate to contact us to further discuss your needs, or if you are in the area feel free to drop into our warehouse and say hello, there will always be someone on hand to help out with your enquiry.

## Australian Standards

Whilst most playground companies claim that all of their equipment is compliant to AS:4685, few of them will provide independent documentation to prove it.

All of our equipment, local and international, have been independently certified by Clive Dodd from Consulting Coordination Pty Ltd. We will provide this documentation each and every time you specify our equipment. Now that's peace of mind.

## Maintenance

A regular maintenance and safety assessment is necessary to keep your playground in excellent working condition and to ensure the safety of children. Omnitech Playgrounds has a team of highly skilled playground technicians, fully trained to ensure that your playground meets all relevant safety standards. Our maintenance and safety inspections are available on an individual basis or as part of an ongoing maintenance schedule. With each of our comprehensive inspections you will be provided with a full written report detailing all work carried out and any additional work or spare parts that may be required so that your children will be as safe as possible while they play.

# Surfacing Services

*With a highly skilled team of professionals, through our acquisition of Melvic Concrete we can provide specialized services in concrete paths, surfacing, edging, repairs and rubber wet pour.*

To find out more about our surfacing services send us an email or call us today

Rubber Sofffall - Wet pour finish

## Soft Fall Options

Omnitech Services can provide you with a range of suitable soft fall under surfacing that will meet Australian Standards and your budget.

Our mulch is an organic loose fill safety surface that knits together to prevent displacement and provides a natural soft safety surface.

For a more permanent safety surface, try our rubber or synthetic turf under surfacing. That is cost effective, durable and available in a range of colours.

Rubber sofffall Pads - Wet pour finish

# Shade & Protection

**Omnitech Playgrounds and Future Shades partnership bringing you the latest in complete sun protection.**

A great way to maximise use of your outdoor area, we can custom design outdoor shade sails for any area. Sails can be used as pool shades, car port covers, playground covers and more.

Future shades sails are manufactured from a high quality, heavy duty knitted shade cloth specifically developed as a strong and stable outdoor fabric for use in tension structures and shade sails. This fabric offers the ultimate combination of maximum sun protection, strength and durability to ensure maintenance free long life performance.

# Future Shade

If you are looking for something a cut above the rest, the Cantaport is the convenient modern shade you have been searching for. This cantilevered shade not only looks great but can be used anywhere and is compact and easy to install. It is engineered and certified to Australian standards and wind ratings, the Cantaport is designed to suit a range of applications.

Whether you wish to shade your playground, pool or alfresco dining area, we can design and install a compact, affordable and stylish shade solution.

To find out more about our Shade services send us an email or call us today and to view more of Future Shades Products visit their website:

# Metal work & Colours Options

## Standard Steel

Our standard Coating process uses galvanised steel with zinc priming and a polyester resin powder top coat.

*\*Best for most applications*

.....

## Anti Graffiti

To inhibit graffiti we apply a final clear coating to metal work, offering resistance to abrasion damage and allowing rapid removal of graffiti.

*\*Best for high vandalism areas*

.....

## Delux Steel

Our Anti-Graffiti coating combined with aluminium decks and posts.

*\*An inexpensive option for areas close to the water*

.....

## Stainless: Marine Grade

Ultimate in marine protection with aluminium decks and Posts and all Stainless steel metal work and fixings.

*\*Best for areas right on the water*

*\*\*Limited equipment options for Stainless Steel metal work*

.....

## Timber

Made from Cyprus Pine with Steel Stirrups; all our Extreme range fittings can be fixed to our Timber posts and Decks.

*\*Best for most applications*
