

JUNGLE SERIES

Jungle Series, our designs in different difficulty levels, that promote motor muscle skills and competitive side of children in age group 12, consist of platforms in 3 different geometry like triangle, square and pentagon with a tent-like look. It is a game group study consisting of different geometric shapes with jungle and earth consepts, mainly rope bridges and climbers, with chrome slides at different heights, targeting children between 2 -12 years. **DISTRIBUTED BY**

JUNGLE SERIES GGJS 1012

Single-casing aluminum cast spheres with anticorrosion treatment are placed at junctions. These spheres are designed with integrated bedding for connecting pipes.

Durable and weatherproof laminated Plywood is used at platforms. These platforms have ability of anti-slip feature to increase the safety of the users.

CmrRope [™] is formed by 6 strands of galvanized wires and a core either steel or fiber. Each strand is tightly braided with Polyester which is adhered to galvanized wires with a patented method to create a solid surface where polyester meets with wires. So extra protection is achieved against friction and vandalism. Surface is extremely abrasion and UV resistant also fire retardant.

High quality panels made of HPL panels are milled to provide a smooth, gently rounded edge. The thickness of the panels varies according to its purpose for floors, roofs, and walls. These panels are connected to steel pipes or profiles with cast aluminum panel clamps or flanges.

edges.

Metal parts are comprised of ST 37 Steel with a 3-step metal finish. Sandblasting and solvent-free zinc primer coating and electrostatic powder paint application is inherently corrosion resistant under extreme weather conditions and UV.

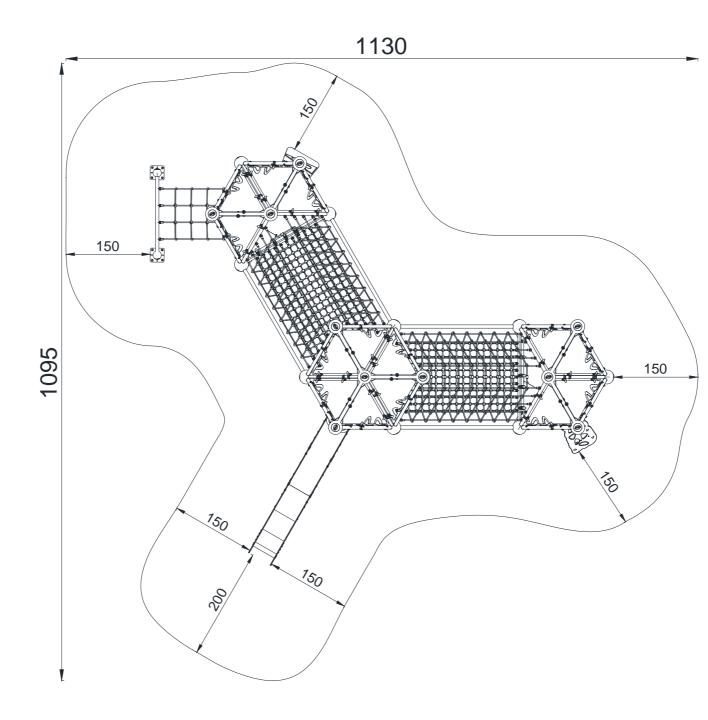

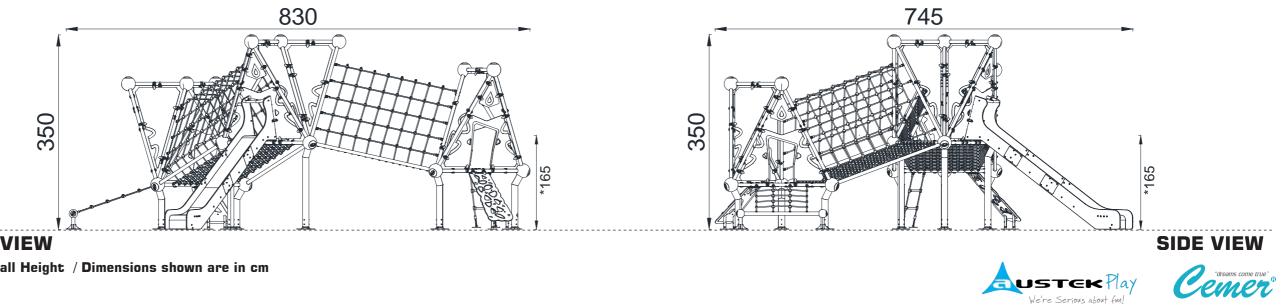

This slide type is very resistant to wear and tear remaining in mint condition for years. Stainless steel material is 2 mm thick. Approved product according to EN 1176 norms. Sides of the slide is HPL or HDPE with rounded
